Dear Customer

As a business with a huge appreciation for our customers we have resisted the implementation of a fuel surcharge continuing to provide a high quality, reliable and affordable service for all of our customers. Despite our efforts to attempt to absorb as much operational cost as possible we are no longer able to avoid passing on some of the cost of absorbent diesel fuel expenses to the end customer.

Unfortunately, due to the drastic increases in fuel expenses within the last seven days and over the last several months we regret to inform you that we must implement a fuel surcharge for all customers to help isolate the impact of fuel from shipping rates.

Effective **May 4<sup>th</sup>, 2022** Baier Transport will be implementing a fuel surcharge on all vehicles transported which will be a percentage of the transport rate based on current fuel prices. The variable fuel surcharge percentage will be based upon the retail ultra-low sulfur diesel prices according to AAA for New Hampshire updated each Monday.

In an effort to be as transparent as possible we are providing our fuel surcharge table below. You can find current retail diesel prices for the state of New Hampshire here: <https://gasprices.aaa.com/?state=NH>

Diesel Price	Surcharge
\$4.00 - \$4.25	7.00%
\$4.26 - \$4.50	8.00%
\$4.51- \$5.00	9.00%
\$5.01 - \$5.25	10.00%
\$5.26 - \$5.50	11.00%
\$5.51 - \$5.75	12.00%
\$5.76 - \$6.00	13.00%
\$6.01 - \$6.25	15.00%
\$6.26 - \$6.50	16.00%
\$6.51 - \$6.75	17.00%
\$6.76 - \$7.00	19.00%

We greatly appreciate your understanding and your business as we attempt to navigate unprecedented energy prices. If you have any questions or concerns, please feel free to reach out to us directly.

We will continue to monitor energy prices and will update our customers to any changes as we move forward. We do reserve the right to adjust surcharges as market conditions change.

Thank you.

The Baier Transport Team
